CONTENTS OF VOLUME 20

JANUARY

Devendra Swaroop Bhargava	1	Models for polluted streams subject to fast purification
D. Amar, J. Partos, C. Granet, G. M. Faup and J. M. Audic	9	The use of an upflow fixed bed reactor for treatment of a primary settled domestic sewage
Phillip R. Scheuerman, Samuel R. Farrah and Gabriel Bitton	15	Development of a method for the recovery of enteroviruses from aerobically digested wastewater sludges
Thierry Gosset, Jean-Luc Trancart and Daniel R. Thévenot	21	Batch metal removal by peat. Kinetics and thermodynamics
Marcia Yunmen Liao and Stephen J. Randtke	27	Predicting the removal of soluble organic contaminants by lime softening
Ebba Lund and Birte Nissen	37	Low technology water purification by bentonite clay flocculation as performed in Sudanese villages: virological examinations
N. P. Hill, A. E. McIntyre, R. Perry and J. N. Lester	45	Behaviour of chlorophenoxy herbicides during the activated sludge treatment of municipal waste water
R. W. Crabtree, I. D. Cluckie, C. F. Forster and C. P. Crockett	53	A comparison of two river quality models
L. Campanella, E. Cardarelli, T. Ferri and B. M. Petronio	63	Mercury removal from petrochemical wastes
J. L. Benoit-Guyod, D. G. Crosby and J. B. Bowers	67	Degradation of MCPA by ozone and light
Kanji Nakamura, Tatsuya Noike and Jun'ichiro Matsumoto	73	Effect of operation conditions on biological Fe^{2+} oxidation with rotating biological contactors
Janis Jansons and Marion R. Bucens	79	Concentration of rotavirus by ultrafiltration
C. R. Milner and R. Goulder	85	The abundance, heterotrophic activity and taxonomy of bacteria in a stream subject to pollution by chlorophenols, nitrophenols and phenoxyalkanoic acids
Susan C. Turbak, Susan B. Olson and Gordon A. McFeters	91	Comparison of algal assay systems for detecting waterborne herbicides and metals
Henk J. Nanninga and Jan C. Gottschal	97	Anaerobic purification of waste water from a potato-starch producing factory
Gordon R. Finch and Daniel W. Smith	105	Batch coagulation of a lagoon for fecal coliform reductions
Phillip M. Fedorak and Steve E. Hrudey	113	Anaerobic treatment of phenolic coal conversion wastewater in semi-continuous cultures
Pierre Lafrance, Michel Mazet, Daniel Villessot et Jean-Claude Thomes	123	Représentation graphique d'une nouvelle forme linéarisée de l'équation de l'isotherme de Langmuir
Announcement	i	The Effects of Contaminants on Ecological Systems, Blacksburg, Va, U.S.A., 17–19 November 1986

FEBRUARY

Obituary Erman A. Pearson	I	
Nicole Kaplan and Mordeckai Magaritz	131	A nitrogen-isotope study of the sources of nitrate contamination in groundwater of the pleistocene Coastal Plain aquifer, Israel

W.R. 20/12—K

Jan Suschka and Edson Ferreira — 137 Activated sludge respirometric measurements

P. A. Shields, T. F. Ling, V. Tjatha, D. O. Shah and S. R. Farrah — 145 Comparison of positively charged membrane filters and their use in concentrating bacteriophages in water

Stephen D. Killops — 153 Volatile ozonization products of aqueous humic material

Stephen D. Killops — 167 Action of ozone on methyl octadec-9-enoate in polar solvents. A model for aqueous ozonization of organic compounds

Yerachmiel Argaman — 173 Nitrogen removal in a semi-continuous process

Gary G. Leppard, J. Buffle and R. Baudat — 185 A description of the aggregation properties of aquatic pedogenic fulvic acids. Combining physico-chemical data and microscopical observations

B. Legube, S. Guyon, H. Sugimitsu et M. Dore — 197 Ozonation du naphtalène en milieu aqueux—I. Consommation d'ozone et produits de réaction

B. Legube, H. Sugimitsu, S. Guyon et M. Dore — 209 Ozonation du naphtalène en milieu aqueux—II. Etudes cinétiques de la phase initiale de la réaction

R. M. W. Horner, R. J. Jarvis and R. I. Mackie — 215 Deep bed filtration: a new look at the basic equations

M. Dore, Ph. Simon, A. Deguin et J. Victot — 221 Dénitratation des eaux à potabiliser sur résines échangeuses d'ions—impact sur la qualité chimique de l'eau traitée

Kunio Nakajima — 233 Simultaneous determination of total organic carbon and total nitrogen in waters by pyrolysis–gas chromatography–mass spectrometry

M. Albat, B. Baleux, B. Picot, J. M. Philipot et J. Bontoux — 237 Evolution de l'azote Kjeldahl et de la biomasse bactérienne le long d'une filière de traitement d'eau potable

J. Waters, J. T. Garrigan and A. M. Paulson — 247 Investigations into the scope and limitations of the bismuth active substances procedure (Wickbold) for the determination of nonionic surfactants in environmental samples

Technical Note

K. H. Reinert, J. H. Rodgers Jr, T. J. Leslie and M. L. Hinman — 255 Static shake-flask biotransformation of endothall

MARCH

Yilmaz Muslu — 259 Distribution of retention times in model biological filters containing packed spheres

Shri N. Singh, M. Bassous, Charles P. Gerba and Lee M. Kelley — 267 Use of dyes and proteins as indicators of virus adsorption to soils

L. Cirilli and A. Borgioli — 273 Methyl bromide in surface drinking waters. Gas-chromatographic determination by the headspace technique

P. G. van Rossum — 277 Determination of the percentage adsorption of unknown organic compounds from water with a multi-column technique

Michael C. Freeman, John Aggett and Glennys O'Brien — 283 Microbial transformations of arsenic in Lake Ohakuri, New Zealand

Zlatica Kozarac, Božena Ćosović and Vjeročka Vojvodić — 295 Effects of natural and synthetic surface active substances on the electrochemical reduction of cadmium in natural waters

G. D. Corder and P. L. Lee — 301 Feedforward control of a wastewater plant

Daniel Ronen, Mordeckai Magaritz and Itzhak Levy — 311 A multi-layer sampler for the study of detailed hydrochemical profiles in groundwater

U. M. Cowgill, H. W. Emmel, D. L. Hopkins, S. L. Applegath and I. T. Takahashi — 317 The influence of water on reproductive success and chemical composition of laboratory reared populations of *Daphnia magna*

F. Quentel, C. Madec et J. Courtot-Coupez — 325 — Influence des substances organiques dissoutes sur le dosage du plomb en milieu marin par redissolution anodique

M. J. Small and M. C. Sutton — 335 — A regional pH–alkalinity relationship

Nam H. Baek and Nicholas L. Clesceri — 345 — NTA biodegradation and removal in subsurface sandy soil

Charles I. Noss, Fred S. Hauchman and Vincent P. Olivieri — 351 — Chlorine dioxide reactivity with proteins

Fred S. Hauchman, Charles I. Noss and Vincent P. Olivieri — 357 — Chlorine dioxide reactivity with nucleic acids

R. M. Gersberg, B. V. Elkins, S. R. Lyon and C. R. Goldman — 363 — Role of aquatic plants in wastewater treatment by artificial wetlands

David K. Stevens, P. M. Berthouex and T. W. Chapman — 369 — The effect of tracer diffusion in biofilm on residence time distributions

B. Naghavi and R. F. Malone — 377 — Algae removal by fine sand/silt filtration

Chiu-Yue Lin, Kazuaki Sato, Tatsuya Noike and Junichiro Matsumoto — 385 — Methanogenic digestion using mixed substrate of acetic, propionic and butyric acids

Forthcoming Conferences — 395

APRIL

Review Paper

P. Mouchet — 399 — Revue des réactions des algues aux micropolluants minéraux et organiques; consequences écologiques et possibilités d'applications industrielles

General Papers

J. A. Thornton, K. L. Cochrane, A. C. Jarvis, T. Zohary, R. D. Robarts and F. M. Chutter — 413 — An evaluation of management aspects of a hypertrophic African impoundment

D. A. Lovett and S. M. Travers — 421 — Dissolved air flotation for abattoir wastewater

R. Moletta, D. Verrier and G. Albagnac — 427 — Dynamic modelling of anaerobic digestion

Gordon McKay, Murad J. Bino and A. Altememi — 435 — External mass transfer during the adsorption of various pollutants onto activated carbon

N. Parthasarathy, J. Buffle and W. Haerdi — 443 — Combined use of calcium salts and polymeric aluminium hydroxide for defluoridation of waste waters

J. Karthikeyan and Malay Chaudhuri — 449 — Enhancement of mercury(II) sorption from water by coal through chemical pretreatment

Michael W. Peck, Janet M. Skilton, Freda R. Hawkes and Dennis L. Hawkes — 453 — Effects of temperature shock treatments on the stability of anaerobic digesters operated on separated cattle slurry

M. D. Krom — 463 — Sources of water to the seawater well which supplies the fish ponds in Eilat. Implications for fishpond management

M. Kawashima, Y. Tainaka, T. Hori, M. Koyama and T. Takamatsu — 471 — Phosphate adsorption onto hydrous manganese(IV) oxide in the presence of divalent cations

Shigeki Masunaga, Yoshikuni Urushigawa and Yoshitaka Yonezawa — 477 — Biodegradation pathway of *o*-cresol by heterogeneous culture. Phenol acclimated activated sludge

Mitsumasa Okada and Shuichi Aiba — 485 — Simulation of water-bloom in a eutrophic lake—IV. Modeling the vertical migration in a population of *Microcystis aeruginosa*

Keiko Katayama-Hirayama	491	Inhibition of the activities of β-galactosidase and dehydrogenases of activated sludge by heavy metals
R. S. Tobin, P. Ewan, K. Walsh and B. Dutka	495	A survey of *Legionella pneumophila* in water in 12 Canadian cities
A. J. Niimi and V. Palazzo	503	Biological half-lives of eight polycyclic aromatic hydrocarbons (PAHs) in rainbow trout (*Salmo gairdneri*)
Charles L. Gallegos and Frank R. Schiebe	509	A device for the continuous measurement of algal photosynthetic response to light
W. M. Wiegant, M. Hennink and G. Lettinga	517	Separation of the propionate degradation to improve the efficiency of thermophilic anaerobic treatment of acidified wastewaters
Charles N. Haas and Barbara Heller	525	Statistics of enumerating total coliforms in water samples by membrane filter procedures
Hilde Lemmer	531	The ecology of scum causing actinomycetes in sewage treatment plants

MAY

Y. Terashima, H. Ozaki and M. Sekine	537	Removal of dissolved heavy metals by chemical coagulation, magnetic seeding and high gradient magnetic filtration
Hisashi Yamada, Mitsu Kayama, Kazuo Saito and Masakazu Hara	547	A fundamental research on phosphate removal by using slag
Hiromitsu Sakai, Yutaka Kojima and Kazuo Saito	559	Distribution of heavy metals in water and sieved sediments in the Toyohira River
Ralph W. Matthews	569	Photo-oxidation of organic material in aqueous suspensions of titanium dioxide
P. D. Abel and S. M. Garner	579	Comparisons of median survival times and median lethal exposure time for *Gammarus pulex* exposed to cadmium, Permethrin and cyanide
R. De Leon, S. N. Singh, J. B. Rose, R. L. Mullinax, C. E. Musial, S. M. Kutz, N. A. Sinclair and C. P. Gerba	583	Microorganism removal from wastewater by rapid mixed media filtration
J. Bryan Ellis, D. Owen Harrop and D. Michael Revitt	589	Hydrological controls of pollutant removal from highway surfaces
Robert E. Stauffer	597	Linkage between the phosphorus and silica cycles in Lake Mendota, Wisconsin
Alician V. Quinlan	611	Optimum temperature shift for *Nitrobacter winogradskyi*. Effect of dissolved oxygen and nitrite concentrations
G. Barroin and Mauricette Feuillade	619	Hydrogen peroxide as a potential algicide for *Oscillatoria rubescens* D.C.
Roland Leduc, T. E. Unny and Edward A. McBean	625	Stochastic model of first-order BOD kinetics
R. Neufeld, J. Greenfield and B. Rieder	633	Temperature, cyanide and phenolic nitrification inhibition
Mikio Kikuchi, Akihiro Tokai and Tamao Yoshida	643	Determination of trace levels of linear alkylbenzenesulfonates in the marine environment by high-performance liquid chromatography
A. E. Zanoni	651	Characteristics and treatability of urban runoff residuals
N. J. Horan and P. Shanmugan	661	Effects of starvation and nutrient depletion on the settling properties of activated sludge
O. Grøterud and L. Smoczynski	667	Phosphorus removal from water by means of electrolysis

Comment

ERIC A. REINER — 671 — Comment on "Control of Activated Sludge Filamentous Bulking—VI. Formulation of Basic Principles" by J. Chudoba

J. CHUDOBA — 671 — Author's reply

JUNE

J. L. COLIN, A. L. DUTOT, G. BABLON et R. VIE LE SAGE — 675 — Application de l'analyse des correspondances à des résultats d'essais de traitement d'eaux de surface

K. J. KENNEDY and R. L. DROSTE — 685 — Anaerobic fixed-film reactors treating carbohydrate wastewater

GARY G. LEPPARD — 697 — The fibrillar matrix component of lacustrine biofilms

JOHN DAVENPORT, PETER OXFORD and AKINLABI AWOBAMISE — 703 — A study of the effectiveness of antifouling electrodes in the marine environment

J. M. CHAPSAL, M. M. BOURBIGOT and D. THOMAS — 709 — Oxidation of aromatic compounds by haemoglobin

N. J. D. GRAHAM — 715 — Orthokinetic flocculation in rapid filtration

MARLENE S. EVANS, GLENN J. WARREN and DONNA I. PAGE — 725 — The effects of power plant passage on zooplankton mortalities: eight years of study at the Donald C. Cook Nuclear Plant

LORENZO LIBERTI, NICOLA LIMONI, ANTONIO LOPEZ, ROBERTO PASSINO and GIANFRANCO BOARI — 735 — The $10\,m^3\,h^{-1}$ RIM–NUT demonstration plant at West Bari for removing and recovering N and P from wastewater

P. R. F. BELL, A. A. KROL and P. F. GREENFIELD — 741 — Factors controlling the leaching of major and minor constituents from processed Rundle oil shale

ULLA LUNDSTRÖM and ÅKE OLIN — 751 — Bromide concentration in Swedish precipitation, surface and ground waters

L. A. MOLOT, J. G. HAMILTON and G. M. BOOTH — 757 — Neutralization of acidic lakes: short-term dissolution of dry and slurried calcite

C. D. WREN and H. R. MACCRIMMON — 763 — Comparative bioaccumulation of mercury in two adjacent freshwater ecosystems

M. ROCH, P. NOONAN and J. A. MCCARTER — 771 — Determination of no effect levels of heavy metals for rainbow trout using hepatic metallothionein

REIN OTSON, GORDON L. POLLEY and JOHN L. ROBERTSON — 775 — Chlorinated organics from chlorine used in water treatment

MARK WOOMBS and JOHANNA LAYBOURN-PARRY — 781 — The role of nematodes in low rate percolating filter sewage treatment works

SENG CHYE ENG, X. A. FERNANDES and A. R. PASKINS — 789 — Biochemical effects of administering shock loads of sucrose to a laboratory-scale anaerobic (UASB) effluent treatment plant

EUN NAMKUNG and BRUCE E. RITTMANN — 795 — Soluble microbial products (SMP) formation kinetics by biofilms

Forthcoming Conferences — 807

JULY

M. G. SATCHWELL — 813 — An adaptation of concentration techniques for the enumeration of parasitic helminth eggs from sewage sludge

NETKAL M. MADE GOWDA, NORMAN M. TRIEFF and G. JOHN STANTON — 817 — Kinetics of inactivation of adenovirus in water by chloramine-T

JAAP DORGELO and PIET A. HENGST — 825 — Two modifications of the quantitative hydraulic lift sampler for benthic invertebrates

A. C. EDWARDS, J. CREASEY and M. S. CRESSER — 831 — Soil freezing effects on upland stream solute chemistry

C. Casellas, G. Cassanas, S. Mathonnet, G. Bablon et J. Bontoux — 835 — Le carbone organique: son intérêt dans le controle de la préozonation

Zbigniew Lewandowski — 847 — Biological reactor resistance to inhibition

M. Tsezos and W. Seto — 851 — The adsorption of chloroethanes by microbial biomass

Morihiro Aizaki, Akira Otsuki and Takayoshi Kawai — 859 — Relationship between nutrient loading and phytoplankton standing crop in outdoor experimental ponds with continuous flow systems

Andrew Bousher, Peter Brimblecombe and Derek Midgley — 865 — Rate of hypobromite formation in chlorinated seawater

J-C. Joret, A. Hassen, M. M. Bourbigot, F. Agbalika, P. Hartemann et J. M. Foliguet — 871 — Inactivation des virus dans l'eau sur une filiere de production à ozonation étagée

P. E. Bertram and A. S. Brooks — 877 — Kinetics of accumulation of selenium from food and water by fathead minnows

Hidehiko Arai, Michimasa Arai and Akihisa Sakumoto — 885 — Exhaustive degradation of humic acid in water by simultaneous application of radiation and ozone

Douglas A. Holdway and D. George Dixon — 893 — Effects of methoxychlor exposure of flagfish eggs (*Jordanella floridae*) on hatchability, juvenile methoxychlor tolerance and whole-body levels of tryptophan, serotonin and 5-hydroxyindoleacetic acid

Milagros S. Simmons and Richard G. Zepp — 899 — Influence of humic substances on photolysis of nitroaromatic compounds in aqueous systems

B. M. Khudenko and E. Shpirt — 905 — Hydrodynamic parameters of diffused air systems

W. A. House, H. Casey, L. Donaldson and S. Smith — 917 — Factors affecting the coprecipitation of inorganic phosphate with calcite in hardwaters—I. Laboratory studies

W. A. House, H. Casey and S. Smith — 923 — Factors affecting the coprecipitation of inorganic phosphate with calcite in hardwaters—II. Recirculating experimental stream system

Research Note

Phillip M. Fedorak and Steve E. Hrudey — 929 — Nutrient requirements for the methanogenic degradation of phenol and *p*-cresol in anaerobic draw and feed cultures

Technical Notes

Göran Bengtsson, Marvin D. Piwoni and Alf Lundberg — 935 — Ultrafiltration cell for sorption and biodegradation experiments

F. M. Gersich and M. A. Mayes — 939 — Acute toxicity tests with *Daphnia magna* Straus and *Pimephales promelas* Rafinesque in support of national pollutant discharge elimination permit requirements

AUGUST

A. P. C. Warner, G. A. Ekama and G. V. R. Marais — 943 — The activated sludge process—IV. Application of the general kinetic model to anoxic–aerobic digestion of waste activated sludge.

G. Aggazzotti and G. Predieri — 959 — Survey of Volatile Halogenated Organics (VHO) in Italy. Levels of VHO in drinking waters, surface waters and swimming pools

Birgit Schultz and Peter Kjeldsen — 965 — Screening of organic matter in leachates from sanitary landfills using gas chromatography combined with mass spectrometry

H. Szwerinski, E. Arvin and P. Harremoës — 971 — pH-decrease in nitrifying biofilms

H. Bratteby and H. Ødegaard — 977 — Phosphorus removal by granular activated alumina

David A. Reckhow, Bernard Legube and Philip C. Singer — 987 — The ozonation of organic halide precursors: effect of bicarbonate

Masahiro Uchiyama, Yuh Nakajima and Yasumoto Magara — 999 — Changes of trihalomethane formation potentials in the Tone River

Anthony W. Bark, David W. Cartwright, Catherine S. Lovatt and Jane M. Watts	1005	A simple and inexpensive monitor for recording oxygen and temperature in lakes and reservoirs
L. Schwartzbrod and C. Mathieu	1011	Virus recovery from wastewater treatment plant sludges
Chongrak Polprasert and H. S. Park	1015	Effluent denitrification with anaerobic filters
William F. McCoy and Betty H. Olson	1023	Relationship among turbidity, particle counts and bacteriological quality within water distribution lines
Douglas A. Dotson, George R. Helz and Richard Sugam	1031	Mineralization of organic matter and other chemical effects of chlorination
K. Salonen and L. Arvola	1041	Effect of added radiocarbon solution on primary production measurements
B. G. M. v.d. Wetering and S. Groot	1045	Water quality monitoring in the state-managed waters of The Netherlands
Koichi Fujie and Hiroshi Kubota	1051	Power economy characteristics of an activated sludge aeration tank
P. J. Radford and J. West	1059	Models to minimize monitoring
Richard L. Valentine, Kirk I. Brandt and Chad T. Jafvert	1067	A spectrophotometric study of the formation of an unidentified monochloramine decomposition product
Announcements	1075	1st IAWPRC International Symposium and Exhibition, Systems Analysis in Water Quality Management, London, U.K., 30 June–2 July 1987
	1076	Specialised Conference on Nitrogen Pollution of Water, Brussels, Belgium, 24–28 November 1987

SEPTEMBER

Review Paper		
Deanna J. Richards and Wen K. Shieh	1077	Biological fate of organic priority pollutants in the aquatic environment
General Papers		
Devendra S. Bhargava and P. K. Pande	1091	Specific deposit and models of horizontal counter-current filtration
C. M. A. Ademoroti	1105	Water purification by fluidized bed technique
P. J. Craig and P. A. Moreton	1111	Total mercury, methyl mercury and sulphide levels in British estuarine sediments—III
J. Hrubec, J. A. Luijten, W. C. M. M. Luijten and G. J. Piet	1119	A pilot plant study on water quality changes during groundwater recharge
D. J. McQueen, D. R. S. Lean and M. N. Charlton	1129	The effects of hypolimnetic aeration on iron–phosphorus interactions
T. R. Martin and D. M. Holdich	1137	The acute lethal toxicity of heavy metals to peracarid crustaceans (with particular reference to fresh-water asellids and gammarids)
I. C. Mac Rae	1149	Removal of chlorinated hydrocarbons from water and wastewater by bacterial cells adsorbed to magnetite
J. Albaiges, F. Casado and F. Ventura	1153	Organic indicators of groundwater pollution by a sanitary landfill
Kalliat T. Valsaraj, Jimmy L. Porter, E. Kristina Liljenfeldt and Charles Springer	1161	Solvent sublation for the removal of hydrophobic chlorinated compounds from aqueous solutions
Arup K. Sengupta, Dennis Clifford and Suresh Subramonian	1177	Chromate ion-exchange process at alkaline pH

T. G. Kovacs and R. H. Voss — 1185 Factors influencing the effect of bleached kraft mill effluents on drinking water quality

Research Note
C. B. J. Gray and R. A. Kirkland — 1193 Suspended sediment phosphorus composition in tributaries of the Okanagan lakes, B.C.

Technical Note
A. D. Cembella, N. J. Antia and F. J. R. Taylor — 1197 The determination of total phosphorus in seawater by nitrate oxidation of the organic component

Comment
H. Ted Chang and Bruce E. Rittmann — 1201 Comment on "Biofilm Cryopreparation for Scanning Electron Microscopy" by J. E. Alleman, E. K. Russell, W. L. Lantz Jr and R. F. Wukasch

James E. Alleman — 1202 Author's reply

Forthcoming Conferences — 1203

OCTOBER

J. Hejzlar and J. Chudoba — 1209 Microbial polymers in the aquatic environment—I. Production by activated sludge microorganisms under different conditions

J. Hejzlar and J. Chudoba — 1217 Microbial polymers in the aquatic environment—II. Isolation from biologically non-purified and purified municipal waste water and analysis

J. Chudoba, J. Hejzlar and M. Doležal — 1223 Microbial polymers in the aquatic environment—III. Isolation from river, potable and underground water and analysis

Walter P. Banas and John B. Sprague — 1229 Absence of acclimation to parathion by rainbow trout during sublethal exposure

I. Anestis and R. J. Neufeld — 1233 Avoidence–preference reactions of rainbow trout (*Salmo gairdneri*) after prolonged exposure to chromium(VI)

Scott E. Belanger, Donald S. Cherry and John Cairns Jr — 1243 Seasonal, behavioral and growth changes of juvenile *Corbicula fluminea* exposed to chrysotile asbestos

John F. McCarthy, Braulio D. Jimenez, George R. Southworth, Dominic M. DiToro and Marsha C. Black — 1251 Anomalous binding of organic contaminants may be artifactual due to radiochemical impurities

D. P. Sartory — 1255 Membrane filtration enumeration of faecal clostridia and *Clostridium perfringens* in water

Nikola Getoff — 1261 Radiation induced decomposition of some chlorinated methanes in water

George M. Ayoub, Sang-Ill Lee and Ben Koopman — 1265 Seawater induced algal flocculation

Joseph Yang and R. E. Speece — 1273 The effects of chloroform toxicity on methane fermentation

C. T. Li, O. J. Hao and K. P. Hsueh — 1281 Starch waste treatment by the activated sludge system

G. D. Lewis, F. J. Austin, M. W. Loutit and K. Sharples — 1291 Enterovirus removal from sewage. The effectiveness of four different treatment plants

A. A. Krol, P. R. F. Bell, P. F. Greenfield and M. J. Dunstan — 1299 Ion exchange properties of retorted Rundle oil shale

V. A. Mhaisalkar, R. Paramasivam and A. G. Bhole — 1307 An innovative technique for determining velocity gradient in coagulation–flocculation process

Phillip M. Fedorak, Deborah J. Roberts and Steve E. Hrudey — 1315 The effects of cyanide on the methanogenic degradation of phenolic compounds

Research Note
CHRISTON J. HURST and TAMARA GOYKE — 1321 Improved method for recovery of enteric viruses from wastewater sludges

Technical Note
JOHN J. WARWICK — 1325 Diel variation of in-stream nitrification

NOVEMBER

H. BENMOUSSA, G. MARTIN, Y. RICHARD et A. LEPRINCE — 1333 Etude de l'inhibition de la nitrification par les cations de métaux lourds

DAVID NYAMAH and J. OBODAI TORGBOR — 1341 Colorimetric method for the determination of arsenic in potable water

R. H. FOY — 1345 Suppression of phosphorus release from lake sediments by the addition of nitrate

W. GUJER and M. BOLLER — 1353 Design of a nitrifying tertiary trickling filter based on theoretical concepts

M. BOLLER and W. GUJER — 1363 Nitrification in tertiary trickling filters followed by deep-bed filters

J. BLANC, J. M. AUDIC and G. M. FAUP — 1375 Enhancement of *Nitrobacter* activity by heterotrophic bacteria

J.-P. EBENGA, M. IMBENOTTE, J. POMMERY, J.-P. CATTEAU et F. ERB — 1383 Structure et évolution d'un modèle d'acide humique sous l'effet de l'ozonation

I. G. FABRIS, K. A. SMITH, J. E. ATACK, G. HEFTER and A. L. KILPATRICK — 1393 Submersible integrating water sampler for heavy metals

T. U. AUALIITIA and W. F. PICKERING — 1397 Anodic stripping voltammetric study of the lability of Cd, Pb, Cu ions sorbed on humic acid particles

KUNIO NAKAJIMA — 1407 Determination of particulate organic carbon in waters by the chemical oxidation method

J. VIVES-REGO, D. VAQUÉ and J. MARTÍNEZ — 1411 Effect of heavy metals and surfactants on glucose metabolism, thymidine incorporation and exoproteolytic activity in sea water

L. V. PARKER and T. F. JENKINS — 1417 Removal of trace-level organics by slow-rate land treatment

N. J. HORAN and C. R. ECCLES — 1427 Purification and characterization of extracellular polysaccharide from activated sludges

WALTER J. WEBER JR, YU-PING CHIN and CLIFFORD P. RICE — 1433 Determination of partition coefficients and aqueous solubilities by reverse phase chromatography—I. Theory and background

YU-PING CHIN, WALTER J. WEBER JR and THOMAS C. VOICE — 1443 Determination of partition coefficients and aqueous solubilities by reverse phase chromatography—II. Evaluation of partitioning and solubility models

Technical Notes
H. T. CHANG and B. E. RITTMANN — 1451 Biofilm loss during sample preparation for scanning electron microscopy

M. J. MICKELSON, D. M. AXELRAD, A. R. LONGMORE and G. W. CRITCHLEY — 1457 Inexpensive *in situ* time-integrating seawater nutrient sampler

R. J. DUTTON, GABRIEL BITTON and BEN KOOPMAN — 1461 Application of a direct microscopic method of the determination of active bacteria in lakes

DECEMBER

H. BENMOUSSA, G. MARTIN, F. TONNARD, Y. RICHARD et A. LEPRINCE — 1465 Etude de l'inhibition de la nitrification par les composés organiques

H. VAN LANGENHOVE, E. WUYTS and N. SCHAMP — 1471 Elimination of hydrogen sulphide from odorous air by a wood bark biofilter

M. Jarret, C. Cavelier et C. Ducauze	1477	Caractérisation de la matière organique dissoute presente dans les eaux en cours d'affinage: influence des traitements appliqués et du climat
